Laura,

What do you think about this? The NDA and MTA were signed in November. Then they sent us a new NDA and MTA because they wanted both WaterGen signatures on it (ceo and Yahouda). So we suggested just having the lab sign these newer docs. But Ardra raises a good question – see below.

Do you think we should amend the original ones instead?

Thanks Sarah - One quick question before we proceed with having these resigned by Tim; Will having these resigned with a February effective date make us in any way vulnerable since the unit was delivered several weeks ago? If we are ever questioned or audited, it would look like we started sharing information and demonstrating the unit several weeks before the NDA & MTA were in place. Alternatively, if we amended the current documents to add the Israeli office and new signature page we've have the history on file. Am I overthinking this?

Hi Ardra,

Here are the documents you can have Tim sign. Once signed please send a copy back to us and you may also send a copy of each to WaerGen.

Please let me know if you have any questions.
